Achieve effective radiation protection with the Ceco Door full line of high quality lead lined doors and frames. These openings accomplish the important task of reliably containing radiation in sensitive areas.

Features

- Lead sheets, available in 1/32” to 1” thickness, integrated into door and frame for strength and vandal resistance (lead thicknesses beyond 1/4” available upon request)
- Vertically steel stiffened doors for added strength and durability
- Consult factory for available fire ratings
- Standard 1-3/4” thick doors accommodate standard hardware
- Continuously welded, seamless door edge and lead lined frame
- Standard 16-gauge steel; 14-12 gauge available
- Fire rated assemblies tested to UL 10C available
- Wood doors available with 1/32” - 1/8” lead thicknesses
- Sound ratings, RF Shielding and Stainless steel options available

Applications

- Aerospace facilities - microwave transmission rooms
- Airports
- Defense, military, and security environments
- Healthcare - X-ray and imaging rooms
- Medical schools
- Nuclear power plants

Compliant Government Sourcing

Can meet the Federal Government’s common domestic sourcing regulations including:
- Buy America
- Buy American Act
- Trade Agreement Act
- American Iron and Steel Requirements
