NOTICE:
The actuator post screw and push rod that come installed on the mounting board are for shipping purposes only. The blank exterior plate, actuator post screw, and push rod can be disposed of once removed.

The actuator post will be attached to the mounting board by means of a blank exterior plate.

PDU8000-3 mating pull assembly will be shipped separate for the main shipping crate.

Fastened to the mating pull will be a bag containing all of the parts and hardware needed for assembling the mating pull.
